

Hampton Mosquito Control Committee
August 19, 2008
Meeting

Present:

Ann Kaiser, Chairman

Russ Bernstein, Secretary

Rich Reniere

Meeting was called to order at 5:45.

Members reviewed the quote from Dragon Mosquito for 2009, which included permit application, surveillance, larvaciding, adultciding, Greenhead trap maintenance and source reduction. The total proposal was \$110,000, which is the same as this year's budget, even though the hourly adultciding rate went up \$10, to \$435/hr.

RR made a motion to accept this proposal. Seconded by RB, and it passed unanimously.

We then discussed whether to request the BOS to enter the entire \$110,000 into the town's budget, or ask for level funding from the BOS and ask the voters for the remainder via a warrant article, like we have done the past two years. We voted to make our decision after AK gets the Town Manager's opinion.

AK showed us a letter from a resident on Robert's Drive requesting no larvaciding or adultciding. Dragon has already stopped spraying this cul-de-sac, but the nearby marshland, that is not part of the resident's property, will still be larvacided.

Residents of Glade Path and Island Path requested more greenhead traps and were accommodated by Dragon.

Meeting was adjourned at 6:20.

Respectfully submitted,
Russ Bernstein
